

Organisch-Chemisches Kolloquium

Sommersemester 2024

jeweils Montags, 11:15 Uhr, Raum S05 T05 B01

1) 29. April 2024

Prof. Pablo Barrio Fernández, Universität Oviedo, Spanien

*“Gold (I)-catalyzed cycloisomerization of 1-bromoalkynes:
synthetic applications and mechanistic insights“*

1) 13. Mai 2024

Prof. Michael Mastalerz, Ruprecht-Karls-Universität Heidelberg

*“Shape-Persistent Organic Cages - Formation, Catenation
and Materials Applications“*

2) 3. Juni 2024

Jun.-Prof. Agnieszka Nowak-Król, Universität Würzburg

*“Leaving the Flatland: The Journey to Chiral
Boron-Containing Materials “*

4) 9. Juli 2024 (Sondertermin: Dienstag, 11:15 Uhr, S06 S00 B41)

Prof. David Margulies, Weizmann Institute of Science, Israel

*“Artificial Communication and Combinatorial Sensing with
Molecules that Interact with Distinct Protein Partners“*
